

ACCESSIBILITY STATEMENT

Effective date: 17 September 2026

InToday LTD is committed to making its website and online service accessible and straightforward to use for as many people as reasonably possible.

Our approach

We aim to consider accessibility throughout the design and development of InToday.

This includes consideration of:

- clear and consistent navigation;
- readable text and typography;
- appropriate colour contrast;
- keyboard accessibility;
- clear labels and instructions;
- meaningful alternative text where appropriate;
- logical page structure;
- accessible forms and controls; and
- compatibility with commonly used assistive technologies.

Accessibility standard

Our development objective is to work towards the **Web Content Accessibility Guidelines (WCAG) 2.2 Level AA** where reasonably applicable.

As InToday is a developing service, we do not currently claim independently verified conformance with WCAG 2.2 Level AA.

Feedback and assistance

If you experience difficulty accessing or using any part of InToday, please contact us at hello@intoday.ai.

It is helpful if you can tell us which page or feature you were using, the problem you encountered and, where relevant, the browser, device or assistive technology you were using.

We will review accessibility feedback and aim to provide a reasonable alternative where practicable.
